

# Harsh Jalindre

SOFTWARE ENGINEER

+91 9503466697 | [hjalindre33@gmail.com](mailto:hjalindre33@gmail.com) | [linkedin.com/in/harsh-jalindre](https://linkedin.com/in/harsh-jalindre) | Pune, Maharashtra

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, Go (Golang), C++, Python, PHP, Python, SQL, HTML5, CSS3

**Frontend:** React.js, Next.js, Redux, Redux Toolkit (RTK), Tailwind CSS, jQuery, Bootstrap, Shadcn UI, CSS, HTML

**Backend:** Node.js, Go (Golang), C++, Python, Express.js, Laravel, CodeIgniter, Symfony

**Databases:** MySQL, PostgreSQL, MongoDB, Microsoft SQL Server

**Tools & DevOps:** Git, GitHub, AWS, Docker, Jira, SQS, SNS, Postman, HL7 Integration, Payment Gateways, WhatsApp Integration

## EXPERIENCE

### Software Engineer

Aug 2025 – Present

Pune, Maharashtra

*Prescient Technologies*

- Deployed as a core contributor for client **BigTinCan**, engineering scalable enterprise solutions using **React, Node.js, and TypeScript**.
- Optimized backend performance and high-concurrency data processing modules using **Go (Golang)** and **C++**.
- Architected and maintained robust relational database schemas using **MySQL**, ensuring data integrity and query optimization for large-scale datasets.
- Collaborated with cross-functional global teams to deliver feature enhancements and improve system stability.
- Engineered high-performance microservices in **Go** for real-time file processing and **Python** for AI-driven metadata extraction and content intelligence.
- Implemented an asynchronous event-driven architecture using **AWS SQS and SNS** to decouple heavy content-syncing tasks, improving system responsiveness.

### Software Developer

Sep 2024 – Jun 2025

Pune, Maharashtra

*Plus91 Technologies Pvt. Ltd*

- Spearheaded the development and enhancement of Healthcare and Laboratory applications using **React, Laravel, Node.js, and PHP**.
- Implemented seamless **HL7 (Health Level Seven)** integration standards to ensure interoperability between different healthcare systems.
- Optimized application performance and refactored legacy codebases to improve maintainability and user experience.

### Software Developer

Dec 2022 – Sep 2024

Pune, Maharashtra

*TechLeaper Systems Pvt. Ltd*

- Developed comprehensive School ERP Portals and Placement/Scholarship platforms using **Next.js, React.js, and Node.js**.
- Integrated third-party communication services including **WhatsApp, Email, and SMS APIs** to automate user notifications.
- Managed database administration for MySQL and Microsoft SQL Server, ensuring high availability and secure data storage.

### Software Developer

Nov 2021 – Dec 2022

Pune, Maharashtra

*Spero Healthcare Innovation Pvt. Ltd*

- Engineered the **108 Emergency App** and various healthcare management systems using **CodeIgniter, React.js, and Laravel**.
- Handled full-stack development tasks involving RESTful API creation with Express.js and database management with PostgreSQL and MySQL.
- Utilized Git for version control and collaborated on team repositories to streamline deployment pipelines.

## PROJECTS

---

### **Bigtincan Content Hub** | *React.js, TypeScript, Redux Toolkit, Symfony, Go, Python, MySQL, AWS*

- Architected a unified content engine using **React and TypeScript**, delivering a seamless UI for managing AI-driven sales assets and digital sales rooms for Fortune 500 clients.
- Developed a robust core backend using **Symfony** and **MySQL** to manage complex enterprise-grade business logic and content security protocols.
- Engineered high-performance microservices in **Go** for real-time file processing and **Python** for AI-driven metadata extraction and content intelligence.
- Implemented an asynchronous event-driven architecture using **AWS SQS and SNS** to decouple heavy content-syncing tasks, improving system responsiveness.
- Leveraged **AWS S3 and Lambda** for serverless file transformations, optimizing asset delivery and reducing cloud infrastructure costs by 20%.

### **Placement Portal** | *React.js, Node.js, Express.js, MySQL*

- Designed and developed a full-stack job application portal allowing administration to post openings and students to apply seamlessly.
- Built a scalable **Node.js and Express.js** backend to handle high-frequency application submissions and integrated **WhatsApp API** and **Email SMTP** for real-time status updates.

### **Healthcare Management Application** | *React.js, Redux, Laravel, MySQL*

- Built a cross-platform (Web & Mobile) application for managing patients, prescriptions, and pharmacy inventory using **Laravel's** secure MVC architecture.
- Implemented Eloquent ORM for efficient data handling and integrated secure **Payment Gateway APIs** to facilitate digital fee transactions.

## EDUCATION

---

### **Masters in Computer Science**

*Pune University*

Pune, Maharashtra

2019 - 2021

### **Bachelor of Science in Computer Science**

*Pune University*

Pune, Maharashtra

2016 - 2018
